## TESTIMONIALS

**Mentee:** I enjoyed the flexibility of the program; it never felt like a chore. My mentor helped with my resume, gave mock interviews, and helped build my confidence in preparation for an internship, which I landed!

**Mentor:** All students should consider participating because it provides access to information, knowledge and wisdom that they simply will not gain in the classroom. Stepping outside their comfort zone will help them grow and build a network full of possibilities.

**42%** 2-5 years of experience  
**27%** 6-15 years of experience  
**31%** 16+ years of experience
