

Professional Development Series *online!*

- Are you an online student looking to enhance your professional development?
- Are you a commuter with limited time on campus?
- Perhaps you're completing an internship and not available 8:30-4:30?
- Maybe you're a student athlete with a full schedule?
- Are you a student looking to earn a digital badge using a hybrid approach?

If any of these statements resonate with you... pursue this online learning option.

What is the Professional Development Series (PDS) Online?

PDS online is the online learning option for CUpro. Students request access to PDS online and then they will be added to a group in D2L. The D2L group is comprised of the five categories:

Choose your Path ● Job Search Documents ● Enhance Your Interview Skills
College to Career ● Professionalism in the Workplace

Within each of the five categories, students will select the topic of their choice and complete the learning module and assessment associated with it to earn credit for completion.

Can a digital badge be earned with PDS Online?

Students can earn a CUpro digital badge using PDS online. Once a participant has successfully completed five categories and program topics, they will be directed to meet with their career liaison to discuss what they've learned and how to apply the learning to their career goals. Once this meeting is held, a digital badge will be issued. Meetings can be held in-person or online.

How does the hybrid learning approach work?

CUpro participants have the flexibility of choosing from professional development options that work with their schedule. For example, maybe they attended Speed Sessions for Career Success which covers two of the five categories for earning a badge. Participants can then choose between individual appointments with their career liaison or request access to PDS online to complete the three remaining categories to earn a badge!

When can students access PDS Online?

PDS online is available during the academic year. Students can request access to the D2L group at any time throughout the fall, winter or spring semesters. Participants will be granted access to PDS online after Speed Sessions for Career Success, which is typically held in late September.
