How to Enable Cookies in Safari v6 and newer

Solution:

1. Open Safari
2. Click Safari from menu bar
3. Click 'Preferences'

![Safari Preferences Menu]

4. Click the "Privacy" tab at top
5. Make sure the 'Never' box is checked next to "Block Cookies and Other Website Data:"

![Privacy Settings]

6. Click 'Advanced' in the bottom left corner
7. Click 'Content Settings' in the new window
8. Click 'Cookies' and select 'Custom' under 'Cookies Usage Rules'
9. Select 'Always allow websites to create cookies' and click 'OK'

You should now have cookies enabled in Safari v6 and newer.
