How to Enable Pop-ups in Firefox

Solution:

1. At the top of the Firefox window, click on the *Tools* menu and select *Options*...
2. Select the Content panel.

To allow pop-up windows:
- a. Uncheck this to disable the pop-up blocker altogether

or
a. Click the 'Exceptions...' button to right of "Block pop-up Windows" check box (This is a list of sites that you want to allow to display pop-ups.)

b. Click in the field just below "Address of website" and type: www.clarion.edu/myclarion

c. Click the 'Allow' button to allow pop-ups for MyClarion websites.

d. Click the 'Close' button

e. Shut down all Firefox windows and then re-open Firefox.
