With regard to the implementation of Responsibility Center Budgeting, she noted that two full days of RC budget presentations had been held and that task forces were being formed to review scorecard data for the academic and infrastructure RCs. She added that the scorecards would be used as a tool to help the university address a 2012-2013 budget shortfall that could range from $1.7 to $5.7 million. In response to a question from Mr. James about the progress of the Governor’s blue-ribbon panel on Pennsylvania Higher Education, Dr. Whitney noted that the committee had met once and that three representatives from PASSHE served on the group. Dr. Whitney also provided an update on the university’s progress in undertaking a new facilities master planning process, noting that a short list of firms to oversee the plan development was being finalized. She also announced that the Middle States Commission on Higher Education had determined that Clarion University meets all 14 standards of excellence. She noted that the Middle States evaluation team had made several suggestions and recommendations for the university’s continued progress. Dr. Nowaczyk presented the proposed Academic Calendar for 2013-2014, noting that it aligned with the PASSHE Common Calendar.

A motion was made by Ms. Dunbar, seconded by Mr. Kifer, to approve the following resolution. The motion carried unanimously.

RESOLVED, that the Council of Trustees, Clarion University, approve the Academic Calendar for 2013-2014 as submitted by the Division of Academic Affairs.

2. Small Business Development Center (SBDC) Grant Proposal to the United States Department of Agriculture (USDA)

Dr. Nowaczyk provided background information on a resolution related to a grant effort of the university’s Small Business Development Center (SBDC). He noted that the SBDC had been awarded $90,0000 from the U.S. Department of Agriculture to provide increased consulting and training services to the distressed areas of Potter, Cameron, and McKean counties and that the resolution stipulated the conditions under which those services would be provided.

A motion was made by Mrs. Burns, seconded by Mr. Pickett, to approve the following resolution. The motion carried unanimously.

RESOLVED, that the Council of Trustees, Clarion University, approve the following resolution:

WHEREAS, Clarion University of Pennsylvania (hereinafter called public body) desires to obtain financial assistance under the Rural Business Enterprise Grant (RBE) from the United States Department of Agriculture, pursuant to Section 310 B of the Consolidated Farm and Rural Development Act, for the purpose of providing increased consulting and training service capacity through the Small Business Development Center (SBDC) of Clarion University of Pennsylvania to work more directly with potential entrepreneurs and existing businesses in Potter, Cameron, and
McKean counties. The office of the SBDC of Clarion University is hereafter referred to as the facility.

As a condition to and in consideration of receiving financial assistance from the Rural Development this resolution is being adopted.

THEREFORE, in consideration of the premises the public body agrees as follows:

a. No private business enterprises shall be allowed to use or occupy the facility if such use or occupancy would be calculated to, or is likely to, result in the transfer from one area to another of any employment or business activity provided by operations of the private business enterprises. This limitation shall not be construed to prohibit use and enjoyment of the facility by such private business entity through the establishment of a new branch, affiliate, or subsidiary if the establishment of such branch, affiliate, or subsidiary will not result in the increase in unemployment in the area of original location (or in any other area where such entity conducts business operations), unless there is reason to believe that such branch, affiliate, or subsidiary is being established with the intention of closing down the operations of the existing business entity in the area of its original location (or in any other area where it conducts such operation).

b. No private business enterprises shall be allowed to use or occupy the facility if such use or occupancy would be calculated to, or is likely to, result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, where there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the sufficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

Prior to allowing the use or occupancy of the facility by any private business enterprise, the public body shall clear such use or occupancy with the Manpower Administration, Department of Labor, Washington, DC, by submitting information required by the Department of Labor for certification under the Act. This information shall be submitted to Rural Development for transmittal to the Department of Labor. The public body agrees to make no final commitment with any private business enterprise regarding
such use or occupancy if the Department of Labor issues a negative certification under the Act. The public body shall obtain prior clearance in this matter for a period of three years after the date of an affirmative certification by the Department of Labor on the application for financial assistance now pending before the Rural Development.

Information Items

1. Report on the College of Education and Human Services

Dr. Nowaczyk introduced Dr. John Groves, Dean of the College of Education and Human Services, who provided a brief report on structure and programs of the college. Dr. Groves noted the college had five departments that served 36% of the university’s undergraduates and 75% of its graduates. He indicated that the college had just completed a re-accreditation review by the National Council for Accreditation of Teacher Education (NCATE) and had met all standards for re-accreditation. He discussed areas of potential growth, including the Speech Pathology program and new concentration in Court and Community Services for the Bachelor of Science in Rehabilitative Sciences. He also shared that the Department of Library Science’s on-line master’s degree in Library Science was the fourth largest in the country. Dr. Groves noted that while current state funding cuts to education had resulted in a downturn in the market for teacher education, a degree in education provided valuable leadership, organization, and time management skills that were useful for a variety of career choices. Mr. James thanked Dr. Groves for this informative presentation.

2. The Harrisburg Internship Semester (THIS) Report

Noting the value of internships as a high-impact educational practice, Dr. Nowaczyk introduced Dr. Barry Sweet, faculty coordinator for Clarion University’s participation in The Harrisburg Internship Semester (THIS) program. Dr. Sweet introduced Ms. Abby Norton, a senior liberal studies major and art studio minor. Ms. Norton discussed her placement with the Pennsylvania Bureau for Historic Preservation and noted the academic seminars and individualized research project that she completed as part of the THIS program requirements. She thanked the trustees for their continued interest in and support of the THIS program.
3. Enrollment Management Update

Dr. Nowaczyk provided an update on recruitment for fall 2012, noting that deposits were down about 80, primarily in Education due to the downturn in that market. He described recruitment efforts, including phone calls to prospective students, letters to cyber school students about the university’s Virtual Campus offerings, placement of additional programs on line, and reduced non-resident tuition rate to attract out-of-state and International students. He also distributed copies of the program for the Senior Honors Program Presentations.

D. Student and University Affairs

Action Items

1. Proposed 2012-2013 Room and Board Rates

Mr. Tripp recommended a residence hall room increase of 4% for 2012-2013 based on assumptions that included a 9.4% average increase in benefits, approximately 50% increase in retirement costs, and a 3% increase in utilities. He further recommended a 3% increase in students’ meal plans to meet an increase of 2.93% in the contractor reimbursement rate and increases in utilities and operating costs. Mr. Tripp presented data that showed that with the
proposed increases, Clarion would rank 10th among PASSHE schools in combined room and board rates when comparing costs for a double room with a 19-meal plan with flex. He noted that the university was expected to rank even lower in overall room and board costs once its sister institutions introduced their new rates.

Mr. Tripp noted that under its current contract with Chartwells, students had a lot of meal plan options. He shared that the company had just completed a roundtable review of its performance that included interviews with students and university administrators to determine their level of satisfaction with the dining and customer service provided. Mr. Tripp added that Chartwells' 48-year association with Clarion University was the longest in the company's history.

A motion was made by Mr. Shreckengost, seconded by Mr. Szumigale, that the following resolutions be approved. The motion carried unanimously.
