

## May/Summer 2018 Graduation Survey Results

6 months post-graduation

### University-wide

May/Summer graduates were surveyed in order to gather data regarding their confirmed career plans. The survey included all degree program students (associates, bachelors, masters and DNP graduates).

These results are based on the total number of confirmed graduates<sup>1</sup> (981) and the number of valid respondents (788), which yields a knowledge rate<sup>2</sup> of 80% of the graduating class. Statistics are as of 01/11/19 at 8:30 AM.

1. **81% of respondents confirmed that they are employed, volunteering, serving in the military and/or continuing their education; 61% are employed either full-time or part-time.**
  - A. Full-time Employment:

48% indicated that after graduation they were starting a new full-time position or were continuing an existing full-time position;

    - I. 73% of those employed full-time are working in Healthcare (35%), Education (21%), or Business and Financial Services (17%);
    - II. 58% of those employed full-time reported receiving a salary of \$40,000 or more per year (includes all industries); 35% indicated a salary of \$50,000 or more per year;
    - III. Of those employed full-time and who provided a work location, 78% remained in Pennsylvania;
    - IV. Of the respondents with full-time employment, 48% of degrees were from completely online programs and 30% were Masters/Doctorate degrees;
  - B. Part-time Employment:

13% indicated that they are starting or continuing a part-time position;
  - C. Volunteer Service:

1.3% (10 students) are participating in a volunteer or service program (such as Peace Corps);
  - D. Military Service:

1.3% (10 students) indicated that they would serve in the US Military;
  - E. Continuing Education:
    - I. 17% of respondents are either accepted or enrolled in a program of continuing education, with 86% enrolled full-time;
    - II. 10% are planning to apply, but are not yet enrolled in a continuing educational program. (These respondents are not included in the 81% total of respondents with confirmed future plans.)
2. 83% of respondents who are employed either full-time or part-time agree that their employment is related to their degree.
  - A. 87% of the students reporting full-time employment agree that their employment is related to their degree.
3. 84% of respondents believe that their Clarion University degree was either very valuable or extremely valuable to their future plans; this figure rises to 97% when including respondents who believe that their degree was moderately valuable.
  - A. 89% of the students reporting full-time employment believe that their degree was either very valuable or extremely valuable to their future plans; this figure rises to 99% when including respondents who believe that their degree was moderately valuable.

<sup>1</sup> Duplicates removed (using Clarion ID), primary education plan used.

<sup>2</sup> NACE defines the percent of graduates for which the institution has reasonable and verifiable information concerning the graduates' post-graduation career activities.

## **May/Summer 2018 Graduation Outcomes** ***Graduate and Professional School Education***

May/Summer 2018 graduation applicants were surveyed over a six month period in order to gather data regarding their future plans. The survey included all degree program students (associates, bachelors, masters and DNP graduates).

These results are based on the total number of confirmed graduates (981) and the number of valid respondents (788), which yields a knowledge rate of 80% of the graduating class.

### **Graduate and Professional School**

- 17% of the survey respondents are either accepted or enrolled in a program of continuing education, with 86% enrolled full-time
