

Spring 2017 Graduation Survey Results

May/Summer graduation applicants were surveyed over a four month period (May 10-September 15, 2017) in order to gather data regarding their future plans. The survey included all degree program students (associates, bachelors, masters and DNP graduates).

These results are based on the total number of graduates (953) and the number of valid respondents (741), which yields a 78% response rate.

1. **79.5% of respondents confirmed that they are employed, volunteering, serving in the military and/or continuing their education; 55% are employed either full-time or part-time.**
 - A. Full-time Employment:
41% indicated that after graduation they were starting a new full-time position or were continuing an existing full-time position;
 - I. 88% of those employed full-time are working in Healthcare (28%), Education (24%), Business (19%); Community & Social Service (11%); and Manufacturing (6%);
 - II. 52% of those employed full-time reported receiving a salary of \$40,000 or more per year (includes all industries); 31% indicated a salary of \$50,000 or more per year;
 - III. Of those employed full-time and who provided a work location, 75% remained in Pennsylvania;
 - B. Part-time Employment:
14% indicated that they are starting or continuing a part-time position;
 - C. Volunteer Service:
1.5% (11 students) are participating in a volunteer or service program (such as Peace Corps);
 - D. Military Service:
1% (7 students) indicated that they would serve in the US Military;
 - E. Continuing Education:
 - I. 22% of respondents are either accepted or enrolled in a program of continuing education, with 84% enrolled full-time;
 - II. 11% are planning to apply, but are not yet enrolled in a continuing educational program. (These respondents are not included in the 77% total of respondents with confirmed future plans.)
2. 30% of respondents confirmed their primary status was seeking employment.
3. 78% of respondents who are employed either full-time or part-time agree that their employment is related to their degree.
 - A. 81% of the students reporting full-time employment agree that their employment is related to their degree.
4. 84% of respondents believe that their Clarion University degree was either very valuable or extremely valuable to their future plans; this figure rises to 97% when including respondents who believe that their degree was moderately valuable.
 - A. 85% of the students reporting full-time employment believe that their degree was either very valuable or extremely valuable to their future plans; this figure rises to 96% when including respondents who believe that their degree was moderately valuable.

May/Summer 2017 Graduation Outcomes ***Graduate and Professional School Education***

May/Summer 2017 graduation applicants were surveyed over a four month period in order to gather data regarding their future plans. The survey included all degree program students (associates, bachelors, masters and DNP graduates).

These results are based on the total number of graduates (953) and the number of valid respondents (741), which yields a 78% response rate.

Graduate and Professional School

- 22% of the survey respondents are either accepted or enrolled in a program of continuing education, with 84% enrolled full-time;

University Attending	Graduate and Professional Program
