

online MBA

A Clarion University MBA is available to students from all undergraduate majors and is a cost-effective way to gain insight and knowledge about the theories, techniques and practices relating to business administration and problem solving. These skills are valuable in every profession, including sciences, arts, healthcare, business and many others.

“At Clarion, I quickly found out it was always about the student and the degree; that was the primary focus. The MBA core courses are exceptional, and to receive a degree from an AACSB accredited institution—this was everything that I wanted in a university.”
