Library Tip: New Conference Room

Over the summer Carlson Library added a new conference / seminar room.

Conference Room C, Room 224, is located on Level 2 of Carlson Library. It contains 14 chairs around a large conference table, plus three additional chairs in the room. At the present time it has no AV support features.

Conference Room C may be reserved through the Office of Conferences and Events using the [Master Calendar and Space Request system](#) known as R25.

The S.W.A.T. Minion's Tip: Why Computers Cannot Boot Instantly

Computers are “state machines”. The problem is that the initial condition the computer starts with is not very useful to you and me.

What **is** useful (a fully booted computer), lies millions of steps further down that ‘state machine.’

To illustrate how a “state machine” works, consider these very simple examples...

- Vending machines dispense products when the proper combination of coins are deposited
- Elevators drop riders off at upper floors before going down
- Traffic lights change sequence when cars are waiting
- Combination locks require the input of combination numbers in the proper order

The easiest way for developers to describe the useful, running state of a computer is to define it in programs, and those programs will always take more than ‘zero time’ to run. While boot up times have definitely improved in the past few years, and will continue to improve as time goes on, there is - and will always be - a lot going on ‘behind the screen’ every time you start up your favorite computer.

Cranial Candy: Word Of The Week

rancid

PRONUNCIATION:

RAN sid

MEANING:

When food starts to decay, it's rancid: it smells and tastes really gross.

Figuratively, something rancid is gross or disgusting, *as if* it's starting to decay. And rancid things seem to get worse and worse (nastier and nastier) as time goes on.

PART OF SPEECH:

Adjective.

(Adjectives are describing words, like “large” or “late.”)

They can be used in two ways:

1. Right before a noun, as in “rancid jealousy.”

2. After a linking verb, as in "Their jealousy grew rancid.")

HOW TO USE IT:

You can be literal: talk about rancid **meat**, rancid odors, rancid tastes, rancid butter, rancid laundry, a rancid basement, and so on.

But we'll focus on the figurative use. Talk about rancid feelings or opinions that get nastier as time goes on: rancid jealousy, rancid hatred, rancid misanthropy, rancid bigotry, etc.

Often you'll say something *grows* rancid, *becomes* rancid, *goes* rancid, and so on: "Their bitterness grew rancid." "The rivalry went rancid." Something could start out as a good thing and then grow rancid: "Her concern grew rancid, devolving into an unhealthy obsession."

Lastly, someone or something can be rancid **with** some negative quality: "Her reviews are rancid with scorn."

Although we do not "repair" computers, the **S.W.A.T. Team** (Students **W**ho **A**ssist [with] **T**echnology) on Level A of Carlson Library is always happy to help. Having an issue? Let us take a *swat* at it!
