Clarion University strives to make a better social environment for their campus community. It was brought to the attention of both the students and faculty at Clarion University that more programming needed to be put into place on weekends throughout the academic year. To accommodate this goal; the Every Friday & Saturday Night program (EFSN) was created. EFSN seeks to offer fun and exciting programs and events for Clarion University students in the Gemmell Student Complex every Friday and Saturday night at eight o’clock.
