Find-a-Roommate Function  
Step-by-Step Instructions

Step 1:  Your Living Preferences section will be completed within the housing application process. By completing your living preferences, the Find-a Roommate function will match your living preferences to other students who answered the questions the same.

Once you completed your Living Preferences questions, you may select “my home” on the left of your homepage.
Step 2: The “Find a Roommate Search” should then be selected if you wish to search for a roommate.

Please select the appropriate term below:

**Fall 2015 - Spring 2016**

- [Fall 2015/Spring 2016 - On Campus and Reinhard Villages Housing Application](#)
  - [Fall 2015/Spring 2016 - Edit Your Application](#)
  - [Find a Roommate Search](#)
  - [Select a Room](ends at 11/28/2014)

Step 3: Here are questions regarding your roommate preferences. Answering more questions will make your search precise. If the system returns few results, try answering fewer questions on this page.

**Find A Roommate**

De Test (987654321)

You may participate in the "Find A Roommate" option below.

By answering at least one of the questions below, you can search for a potential roommate who will meet your preferences.

By answering more questions, your search will be precise. If a student(s) matches your criteria selection, you will receive an anonymous message requesting additional information.

If your search returns no matches, please answer fewer questions for your roommate preferences.

- What music do you prefer your roommate to enjoy?
- What room temperature should your roommate prefer?
- How should your roommate prefer to study?
- Can you live with a roommate who is a smoker?
- What time do you prefer your roommate to normally awake?
- What time do you prefer your roommate to normally go to bed at night?
- How do you prefer your roommate to keep the room?
- How often do you prefer a roommate to clean their space?

[Search]
Step 4: The results page lists potential roommates according to your search criteria. PLEASE NOTE: The results are anonymous. The system assigns a random ID number. When you select an ID number, you can view details on a potential roommate. Their living preferences and class standing will be available to you.

Step 5: By selecting the roommate ID number, you can message this student to ask additional questions. At some point you may decide to swap email addresses or a contact phone number.
Step 6: By using "My Messages" you can send and receive messages from potential roommates.

Your Living Preference

De Test (987654321)

These questions are about you. Make any necessary changes in "Roommate Search" if you wish.

Select "Log Out" to end your search.

Step 7: Once you have finished with the Find-a-Roommate Function, please select "my home" or "log out". You can return at anytime.
