While it is understood that a staff position in the residence halls cannot easily be translated into hours worked per day or week because of the unique nature of the responsibilities, the position requires a genuine personal commitment and a firm understanding of the varying demands of the actual time involved. Quality hours can be defined as, but not be limited to, time spent conducting programs with the residents, addressing resident and community development issues, and staff development opportunities including committee or staff meetings. CAs may be scheduled for duty whenever the residence halls are open, including University holidays. CAs are also required to have a minimum of five office hours (one hour per day) scheduled Monday - Friday when residents will be able to find them in their room and available to assist residents with questions, problems or concerns. It is important to understand that CAs are still expected to be available outside of their five formal office hours per week for resident interaction. CAs will follow the Center for Residence Life Services “In By” scheduling system which is outlined in the position contract.

Other Commitments and Employment

Community Assistants are encouraged to participate in the life of the campus and community; however, no commitment should interfere with responsibilities of being a student in good standing or with the responsibilities of the position. When conflicts arise between CA duties and extracurricular activities, CA responsibilities take priority. To ensure that outside activities are appropriate, they should be reviewed with the Residence Life Coordinator at the beginning of the year and periodically throughout the year.
