

Why use ePortfolio?

Individually, ePortfolio is an excellent way to showcase your learning, experiences, achievements, and skill sets to potential employers, grad school applications, internship opportunity and more by sharing samples of learning and work in a digital format.

Consider the ways you may benefit by use of ePortfolio:

Create a Collection for a Research Project

Students can upload and create a collection for a research project for easy access and organization of information for a research project.

Digital Resume

By utilizing ePortfolio, students can showcase highlights of their academic career; by exporting you, ePortfolio to Mydesire2learn.com students can share these highlights with potential employers. Be sure to read the 'Export your ePortfolio' document located on our [ePortfolio webpage](#).

Peer Feedback

Sending works to ePortfolio and sharing with peers is a good way to get feedback from others.

Group Work

Use ePortfolio to share documents with a group of peers for course level group projects.

Online Portfolio

Students can utilize ePortfolio to store projects they have worked on throughout their academic career. Like other online portfolio options, ePortfolio can be used to display art, video, or writing samples to be showcased to a potential employer or client.

Note: Students can only upload videos to ePortfolio that meet or do not exceed the limited file size supported by D2L.
