

June - Monthly D2L Update Notification

D2L/Brightspace Learning Environment 20.19.6 - update effective June 20, 2019

Discussions – Save feedback in draft state when associated with rubrics (updated)

- Instructors now have the option to save feedback as a draft on discussions associated with rubrics before publishing it to learners. Now, when instructors add feedback for discussions with rubrics, the **Save Draft** and **Publish** buttons display. This feature extends existing **Save Draft** and **Publish** options available in other assessment tools to discussions that are only associated with a rubric.

Note: If a discussion topic is associated with more than one rubric, then both the rubrics are now visible in the same pop-up dialogue.

Quizzes – Arithmetic and significant figures questions round up from .5 (updated)

- Arithmetic and Significant Figures questions in quizzes now round up from .5 by default. Previously these types of questions were rounded down from .5.
