

May Monthly D2L Update Notification

D2L/Brightspace Learning Environment 10.8.1 - update on or about May 17, 2018

Grades – Locking name column and header row

This Daylight-only feature introduces the locked **Name** column and header row in the following pages within Grades, so that instructors can scroll through user grades without losing the context for which and whose grades they are looking at:

- Standard View
- Spreadsheet View
- Grade Category
- Grade Individual Item
- Final Grades

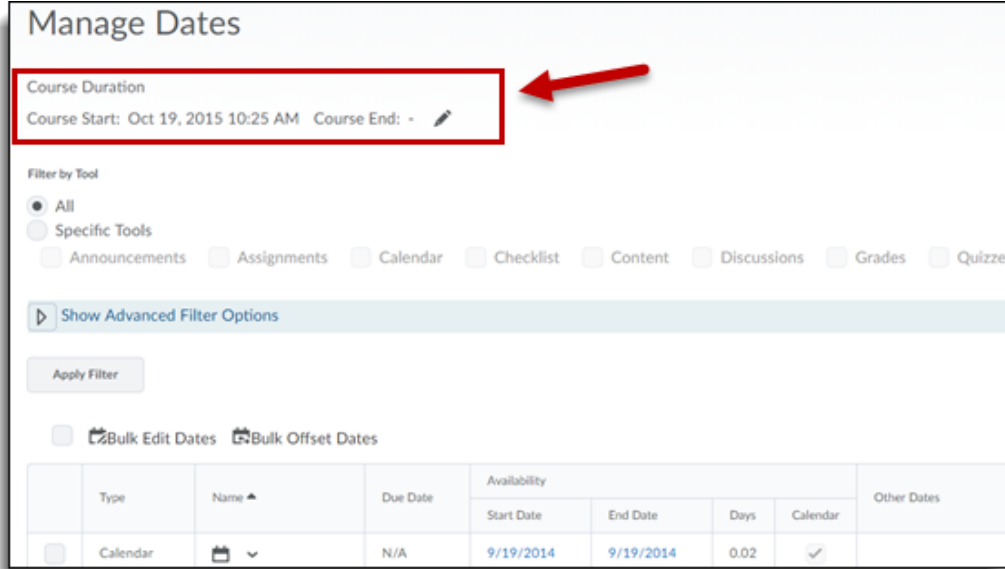

Last Name ▲, First Name	Final Grades	Quizzes ▼				
	Grade total ▼	Quiz 1 ▼	New grade item ▼	Test Exam ▼	testing ▼	quizz ▼
Faculty, LTC	3.71 / 418, 0.89 % g5	/ 10	/ 10	3 / 5	/ 10	0.714
Fye, Allison	0 / 418, 0 % g5	/ 10	/ 10	/ 5	/ 10	

The existing solution that repeats the Name column and header row every x columns / rows is only available on legacy web browsers (Internet Explorer 11 and Microsoft Edge). The new locked Name column / header row is present on Chrome, Firefox, and Safari web browsers and is not present on Internet Explorer 11 and Microsoft Edge web browsers. The locked Name column /header row will not be active when using a small screen space such as a mobile device.

Manage Dates – Improvements to the tool

- Offset other activity dates – In addition to offsetting start, end, and due dates, instructors have the option to offset other dates associated with activities. Affected dates are: discussion topic and forum locking dates, quiz submission view dates, quiz report dates, and survey report dates.
- Manual calendar events - Instructors can edit the start and end dates of events that were manually created and not tied to existing activities or content topics. As a result, instructors can manage all course dates from a single location.

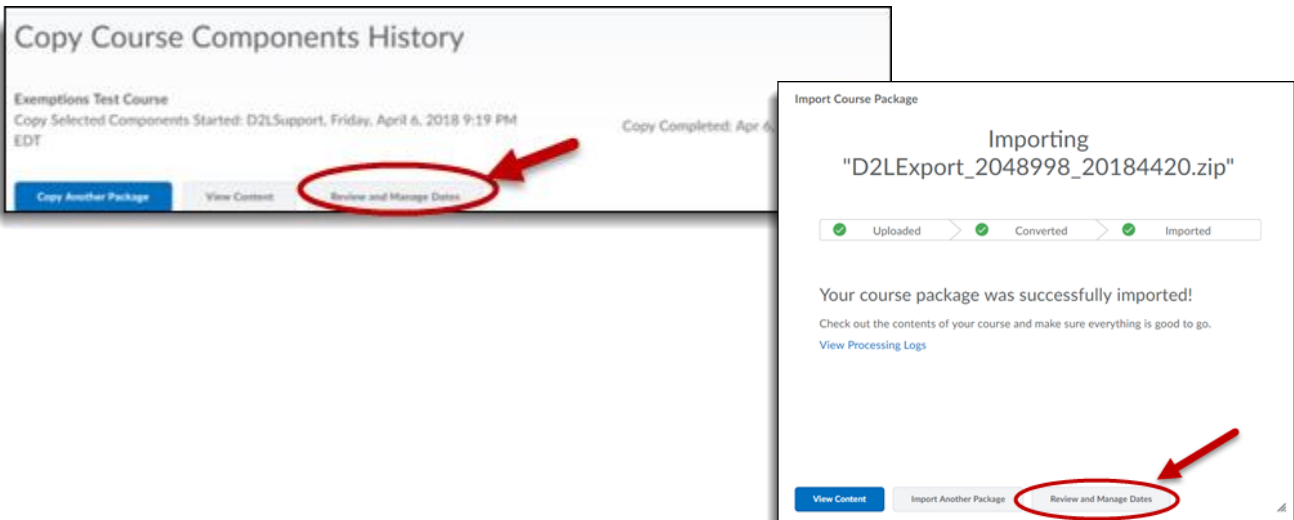

- Improved sorting of items to follow tool sort order - Manage Dates display activities in the order in which an instructor would see them in their respective tools.
- Display of course start and end date (*if used*) - The course start date and end date appears at the top of the **Manage Dates** page and acts as a reference for instructors when operating on the dates of the various activities.

- The **Tool** column on the **Manage Dates** page has been removed - You can use the **Type** column to sort the **Manage Dates** page based on the tool-specific order.

- New links to the **Manage Dates** page - The new **Review and Manage Dates** button appears at the end of copy course components, course import, and course import advanced

Rubrics – New interface for previewing

This release introduces a new interface for instructors and learners to preview rubric definitions. The new interface includes the following changes:

- Rubric previews open in a pop-up window or are embedded in the assessment view (such as an assignment or discussion)
- Each rubric definition preview accommodates current rubric types (6 levels and 10 criteria)
- Rubric definition previews maintain a consistent appearance across tools in Brightspace Learning Environment, including responsive display on desktops and mobile devices
- **Overall Score** row is removed and replaced by a **Total** row for the entire rubric
- Rubric criteria groups display as mini-rubrics

Criteria	Level 3 3 points	Level 2 2 points	Level 1 1 point	Level 4 1 point	
Argument topic	You agreed or disagreed with an idea but you need to elaborate more fully on our supporting ideas.	You agreed or disagreed with an idea but you do not provide any supporting reasoning.	You formed a response, but you failed to select a statement for argument from the reading to make your answer relate to the reading.	You agreed or disagreed with a point in the reading.	/ 3
Supporting arguments	Provided some supporting statements.	Your arguments do not make sense.	No arguments.	Provided elaborate supporting statements.	/ 3
Mechanics	There are a few minor spelling and/or grammar errors.	There are more than 5 spelling and grammar errors.	Errors are excessive.	No errors.	/ 3
Total					- / 9
