Callout number	Name	Button Icon	Description
1	Beacon LED	N/A	The beacon LED flashes a red light on the upper-right corner of the phone if you receive a call while on an existing call using handsfree or handset/headset. When you have a voice mail, the beacon icon stays lit.
2	Phone display	N/A	The first line shows status information such as the time and date, primary extension, error indications, and missed calls. The second line, called the Status Line provides information, such as when you can use the right or left navigation arrows to view other screens or menus. The Status Line also provides messages related to the current application or the actions that you must perform on a screen. Call appearances/features appear below the Status Line.
3	Line Keys	N/A	<p>The line buttons with integrated LEDs show which lines are in use and correspond to the lines on the display. Press the line button to select that line. For an incoming call, the green LED blinks. While the phone is off-hook, both the red and the green LED glow. Lines also indicate if the system has enabled or disabled a feature in the Feature view. Lines also indicate if the system or system number has enabled or disabled a feature in the Feature or System Numbers view. The green LED glows to indicate that a feature is enabled. When you turn off the feature, the LED turns off.</p> <p> <b>Note:</b></p> <p>For multiple call appearance alerting, the phone highlights the call appearance with the most recent incoming call.</p>
4	Softkeys	N/A	Use the softkeys to act on the highlighted line on the screen. The softkey labels show you the action that each key produces. The labels and the actions vary depending on the screen that the phone displays.
