#### **Can you describe the campus and classes/professors?**

The campus is very beautiful especially during the fall. The campus has a student center called the Smith Center, where you can go grab a bite to eat at Rocky's with friends or grab a coffee at Starbucks before class. It is a great place to just hang out with friends or study for finals. There is also a recreational center called the ARC. There is a wide range of activities to do there such as swimming, basketball courts, weight room, climbing wall, and much more. The classes are very interpersonal and the professors love to get to know the students.
