

PROGRAM GOALS AND LEARNING OUTCOMES

Goals:

- To prepare graduates with demonstrated competencies in the cognitive (knowledge) psychomotor (skills), and affective (behavior) learning domains of respiratory care practice as performed by registered respiratory therapists.
- To prepare leaders for the field of respiratory care by including curricular content that includes objectives related to acquisition of skills in research

Learning Outcomes: Upon completion of the program, the graduate should demonstrate:

- The ability to comprehend, apply and evaluate clinical information relevant to their roles as registered respiratory therapists.
- The technical proficiency in all skills necessary to fulfill their roles as registered respiratory therapists.
- Professional behavior consistent with employer expectations as registered respiratory therapists.
- The ability to utilize evidence-based medicine in clinical practice.
