Basic Skills Assessments – Composite Score Option

You may combine reading, writing and mathematics module scores from different test providers to meet the basic skills requirements.

You may use the composite score method to meet the requirement when you do well in one or two areas to compensate for a lower score in the other area.

The composite score is the sum of the passing scores. Use the Composite Score Calculator when mixing tests. Note When using the composite score, each test must meet or exceed the minimum score listed.
