SUMMER ACADEMY 2022

WILDLIFE *and*
DISEASE BIOLOGY

JULY 17-23, 2022

CLARION
UNIVERSITY

HONORS
PROGRAM

WILDLIFE *and* DISEASE BIOLOGY

***Do you enjoy the outdoors?
Are you interested in wildlife?
Do you care about conservation?***

Join us for a field and laboratory based research experience in the fundamentals of natural resource conservation.

In this week-long academy, high school students learn how to study wildlife populations, evaluate their habitats and sample for disease causing pathogens. Field-collected samples will be analyzed in the laboratory using cutting-edge tools in molecular biology, including DNA extraction, amplification and characterization.

Students will conduct field projects in which they will design their own research studies, shape data analysis and propose management strategies. In addition, they will have the opportunity to interact with professionals to learn more about career opportunities in fisheries, wildlife and laboratory sciences.

“This is an exciting and unique opportunity to explore questions about an important societal issue. How do we sustain wildlife populations and what are the best solutions for restoration and management in a changing world?”

***Dr. Kurt Regester,
Instructor***

about **THE PROGRAM**

FACILITY

State-of-the-art labs in the state-of-the-art Grunenwald Science and Technology Center.

FACULTY

DR. KURT REGESTER
Dept. of Biology

DR. HELEN HAMPIKIAN
Dept. of Biology

BRIANNA REED
Dept. of Biology

FEES

Camp registration fee is \$50 for each student. Room, board, and instructional supplies are covered by a grant from the Pennsylvania General Energy company and Robindale.

Registration fee will be refunded if not accepted into the academy.

**Applications can be downloaded from
CLARION.EDU/SUMMERACADEMY
*Application deadline is June 4.***
